

ROUND ELBOW FORMING MACHINE MODEL BAW - 1.2 X 1000

A single machine platform, elbow making machine is efficient and cost-effective solutions to the production of elbows, reducers, end caps, and offsets and provides you the ability to fabricate quality standing seam fittings in-house.

MAIN TECHNICAL PARAMETERS

ELBOW LOCK MACHINE	
Model	: BAW - 1.2 X 1000
Brand Name	: WEMA
Motor	: 1.5/1.5kw
Capacity	: 0.5 - 1.2mm
Power	: 1.5x2 kw
Weight	: 556 kg
Dimension	: 2100 x 820 x 890mm
Note	: Minimum processing diameter ϕ 120mm to ϕ 1000mm Maximum speed: 7m/min
Brand New	: China
