

SEAM LOCKER MODEL: F301-2

MACHINE DESCRIPTION:

Seam locker is used to lock Pittsburgh seams, angle seams, and standing seams. Automatic adjustment to the sheet thickness gives you consistent seam results and it has the ability to close Pittsburgh Lock up to a maximum thickness of **1.25mm mild steel**.

TECHNICAL PARAMETER:

Seam Locker		Remarks
Model No.	F301-2	
Voltage	220V	>400N/MM
Frequency	50/60Hz	>400N/MM
Material tensile strength 400N/mm ²	0.75-1.25mm	>400N/MM
Working speed	4-7 m/min	>400N/MM
No Load speed	160/min	>400N/MM
Nominal Power Consumption	1400W	>400N/MM
Inner Radius	Min 800mm	>400N/MM
Outer Radius	Min 800mm	>400N/MM
Protective Insulation	Class II	>400N/MM
Weight	6.6 Kg	>400N/MM
Brand	WEMA (Made in China)
