**Welcome To**

## **Technology Solution Factories Machines TR L.L.C**

**TSF**, It is a subsidiary company of Narex Equipment and Tools Group. founded in 1994, distributes all types of industrial fabrication machinery, serving esteemed clients in-country, GCC, and Africa. Led by **Mr. Ahmed Shihada (MD)** and **Mr. Shihada Shihada (CEO)**, our three-decade journey has established us as top distributors, prioritizing client relationships, high-quality products, and efficient after-sales service.

T S F

# Welcome To Technology Solution Factories Machines TR L.L.C

At **TSF**, we excel in providing top-tier steel fabrication machines designed for precision and efficiency. Our extensive range includes CNC fiber laser cutting, laser welding, rolling, and ducting machines, along with CNC plasma cutting systems. We also supply essential air compressors, dryers, welding machines, consumables, and spare parts, ensuring a complete solution for all your fabrication requirements.

**OUR  
PRODUCTS**

# Meet Our Products

TSF specializes in top-tier steel fabrication machines, offering a comprehensive range including CNC fiber laser cutting, laser welding, rolling, and ducting machines. We also provide CNC plasma cutting systems, air compressors, dryers, and welding machines, along with essential consumables and spare parts. Our products ensure precision, durability, and efficiency for all your fabrication needs.

## CNC Fiber Laser Cutting Machines

A CNC laser machine precisely cuts using a high-powered laser controlled by computer numerical code, offering high accuracy and efficiency for industrial and artistic applications.

## Fiber Laser Welding Machines

A laser welding machine uses focused laser beams to join materials with high precision, offering strong, clean, and efficient welds.

## Steel Fabrication Machines

Steel fabrication machines cut, shape, and assemble steel structures and components, enhancing efficiency and precision in manufacturing and construction.

## Engineering Machines

Industry engineering machines design, build, and maintain complex systems, enhancing efficiency and precision in manufacturing processes.

TSF

# Meet Our Products

TSF specializes in top-tier steel fabrication machines, offering a comprehensive range including CNC fiber laser cutting, laser welding, rolling, and ducting machines. We also provide CNC plasma cutting systems, air compressors, dryers, and welding machines, along with essential consumables and spare parts. Our products ensure precision, durability, and efficiency for all your fabrication needs.

## Ducting Machines

Industry ducting machines form and shape ducts for efficient ventilation and air distribution systems.

## Roll Forming Machines

Industry roll forming machines shape metal sheets into consistent profiles for construction and manufacturing applications.

## CNC Plasma Cutting Machines

Industry CNC plasma cutting machines use high temperature plasma torches, precisely cutting metal sheets based on programmed designs.

## Air Compressor & Dryers Machines

Air compressor machines convert power into pressurized air, enabling various pneumatic tools and applications.

# TSF

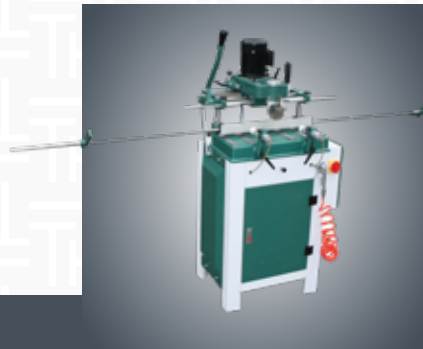

# Meet Our Products

TSF specializes in top-tier steel fabrication machines, offering a comprehensive range including CNC fiber laser cutting, laser welding, rolling, and ducting machines. We also provide CNC plasma cutting systems, air compressors, dryers, and welding machines, along with essential consumables and spare parts. Our products ensure precision, durability, and efficiency for all your fabrication needs.

## Welding Machines

Our stock includes MIG machines for versatile thin-metal welding, TIG machines for precise stainless steel and aluminum work, and robust MMA machines, ready for heavy-duty applications in challenging environments.

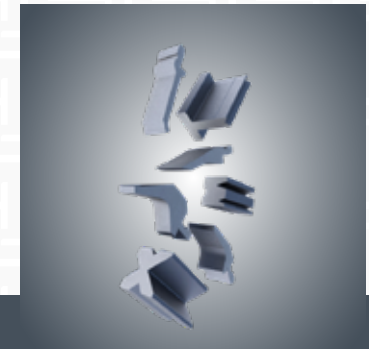

## Aluminum Machines

Aluminum machines offer precise cutting, bending, and forming solutions for aluminum fabrication, ensuring high efficiency and accuracy in industrial applications.

## Consumables & Spare parts

Industry consumable parts are replaceable components used in machinery, essential for maintaining optimal performance and efficiency.

## Dies & Tools

Press brake dies and tools shape metal sheets with precision, essential for bending operations in manufacturing.

TSF

The image is a collage of industrial scenes. On the left, a welder in a protective mask and gear is working, with bright sparks flying. In the center, an orange robotic arm is positioned over a workpiece. On the right, a close-up of a CNC machine's spindle is shown cutting a metal part, with a shower of sparks. The background is a dark, textured pattern.

# OUR BRANDS

# FOUR — BRANDS

 <small>Cutting   Bending   Welding   Automation</small>						 <b>GHBM</b>
			 <small>SHAPING POSSIBILITY™</small>			
	 <small>QINGDAO WEILISHI CO., LTD.</small>					
						 <small>Best machine manufacturer — SINCE 1994</small>

A large industrial port at dusk. A massive gantry crane with multiple levels and lights dominates the left side of the frame. In the foreground and middle ground, there are several stacks of shipping containers in various colors (blue, yellow, brown, white). A yellow container handler is positioned in front of the stacks. The sky is a deep blue with some light clouds. The overall scene is illuminated by the warm lights of the port and the cool tones of the twilight sky.

# ORDERING & DELIVERY

## Ordering & Delivery

### What is the lead time from order to **DELIVERY**?

We have more than **400 products** in our range, with two large showrooms, and we always keep a bulk quantity of machines in stock to ensure quick availability. Once the order is placed and the terms of payment are confirmed, your order will be delivered within 2 working days.

### WARRANTY PERIOD

All TSF machines come with a 2 year warranty on materials.

### TERMS OF PAYMENT

Payment options will be discussed by our sales personnel and we have options to suit your needs.

### AVAILABILITY OF A DEMONSTRATION MACHINE

If clients wish to arrange a demonstration of the product, we can have it done at our showroom.

### DELIVERY AND INSTALLATION

Upon order confirmation, our team will provide complimentary delivery across the UAE, along with free installation and training for the purchased machine.

# Why Choose Us?

**TSF** technical team is trained to meet customer's demands and assist them in every possible way. They have the highest product knowledge and are available 24/7 to provide professional customer service support.

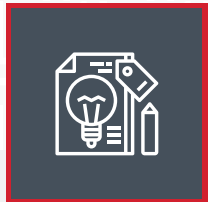

## Expertise

**TSF's** technical team is equipped with extensive product knowledge, ensuring they can address any customer query or issue with precision and expertise.

## Accessibility

Customers can rely on Narex's technical support round the clock, providing peace of mind and assistance whenever needed, regardless of the time zone or urgency.

## Professionalism

**TSF's** technical support team upholds the highest standards of professionalism, delivering quality service that instills confidence and satisfaction in customers.

## Tailored Assistance

The team is dedicated to meeting customer demands, offering personalized solutions and guidance to ensure each customer's unique needs are addressed effectively.

**Our unparalleled expertise:** accessible support, personalized assistance tailored to their needs, and unwavering professionalism. With Narex, they gain a reliable partner committed to meeting their demands and ensuring satisfaction with every interaction.

# Business Mission & Vission

## Our Mission:

To empower our customers with unrivaled expertise, accessible support, and personalized solutions, ensuring their success and satisfaction in every interaction with Narex.

## Our Vision:

To be the leading provider of technical solutions, renowned for our unwavering professionalism, innovation, and commitment to exceeding customer expectations.

## Our Goals:

1. Provide unparalleled expertise and support to every customer.
2. Innovate continuously to stay ahead of industry trends.
3. Foster long-term partnerships built on trust and satisfaction.

# How to Reach Us ?

**TSF** always available at times to suit you as we understand your importance. Our offices are open **8:30 AM - 6:30 PM** Monday to Saturday. Feel free to contact us using any of the options listed below.

- **Technology Solution Factories Machines TR**  
L.L.C, Sharjah Industrial Area 2, Sharajh,UAE.
- **Narex Industrial Tools & Equipment Trading**  
Opposite Caterpillar Showroom, Sharjah Industrial Area 2, Sharajh,UAE.
- **NYX, Complex 47, Office 102**  
Abdullah Ghosheh Street,  
Amman - Jordan

## Thank You Message

Thank you for choosing **TSF**. Your trust in our expertise, accessibility, and professionalism drives us to exceed expectations. We appreciate your continued support and partnership.
